

Children's Association for Maximum Potential 2018 Summer Camp Schedule with HCV/DDRC Info

Session 1 – Adult

May 27 – June 1

This session is open to CAMPers (aged 22-50*) with mild to severe intellectual and physical impairments. *Returning CAMPers over age 50 maybe eligible to attend based on annual review. HCVs (Health Care Volunteers) are needed but no DDRC (Developmental Disabilities Reality Course) during this session.*

Session 2 – Adult

June 3 - 8

This session is open to CAMPers (aged 22-50*) with mild to severe intellectual and physical impairments. *Returning CAMPers over age 50 maybe eligible to attend based on annual review. HCVs are needed but no DDRC during this session.*

Session 3 – General/Intellectual Disability

June 17 - 22

This session is open to CAMPers (aged 5-21) with mild to moderate intellectual disabilities, without aggressive behavioral issues. This session is not appropriate for CAMPers with moderate to severe Autism/ASD/PDD, nor for CAMPers in wheelchairs. *HCVs are needed but no DDRC during this session.*

Session 4 – Medical/Physical/Mild ID

June 24 - 29

This session is open to CAMPers (aged 5-21) with mild to severe physical or medical conditions, or mild intellectual disabilities, without aggressive behavioral issues. This session is appropriate for CAMPers with wheelchairs, those with more medically involved conditions, and those who need nursing or medical monitoring overnight. *There will be a DDRC, approved for CMEs and CNEs, focused on overall developmental disabilities. This session requires a large multi-disciplinary med staff due to the needs of medically fragile campers, but is usually well attended and space is limited. Register early. This session is recommended for residents (pedi, family medicine, etc), RNs/LVNs, nursing students, RTs, respiratory students, pharmacy students, and any other medical professionals.*

Session 5 – Autism/ASD

July 8 - 13

This session is open to CAMPers (aged 5-21; boys and girls) with Autism/ASD/PDD. This session is not available for CAMPers in wheelchairs. *There will be a DDRC focused on Autism Spectrum Disorder. This is a unique opportunity for all HCVs to get training and hands-on experience with campers on every level of the spectrum. This session is suggested for all medical providers, caseworkers, social workers, fellows, psychologists, teachers, therapists, and others interested in this area. CMEs will be available for doctors. If you require other types of continuing education hours, please contact Sarah Coulombe to discuss.*

Session 6 – General/Intellectual Disability

July 15 - 20

This session is open to CAMPers (aged 5-21) with mild to moderate intellectual disabilities, without aggressive behavioral issues. This session is not appropriate for CAMPers with moderate to severe Autism/ASD/PDD, nor for CAMPers in wheelchairs. *HCVs are needed but no DDRC during this session.*

Session 7 – Medical/Physical/Mild ID

July 22 - 27

This session is open to CAMPers (aged 5-21) with mild to severe physical or medical conditions, or mild to moderate intellectual disabilities, without aggressive behavioral issues. This session is appropriate for CAMPers with wheelchairs, those with more medically involved conditions, and those who need nursing or medical monitoring overnight. *There will be a DDRC focused on overall developmental disabilities. This session requires a large multi-disciplinary med staff due to the needs of medically fragile campers, but is usually well attended and space is limited. Register early. This session is recommended for residents (pedi, family medicine, etc), RNs/LVNs, nursing students, RTs, respiratory students, pharmacy students, and any other medical professionals.*

Session 8 – Autism (males only)

July 29 – August 3

This session is open to CAMPers (aged 5-30; **boys only**) with Autism/ASD/PDD. This session is not available for CAMPers in wheelchairs, nor for girls with Autism/ASD/PDD. (Girl siblings without a diagnosis and staff children aged 5-13 are allowed this session.) *HCVs are needed but no DDRC (during this session).*

Session 9 – Blended/Transition

August 5 - 10

This session is open to CAMPers (aged 13-35) with mild to severe physical or medical conditions, or mild to moderate intellectual impairments, without aggressive behavioral issues. This is a mixed ability session, including CAMPers using wheelchairs. This session is not appropriate for those who require nursing or medical monitoring overnight. *There will be a DDRC, with CMEs and CNEs available, that will cover developmental disabilities and focus on transition of young adults from peds to adult medical care. This session is suggested for those who deal with children, adolescents, and adults with disabilities, including physicians (peds, family medicine, and internal medicine), psychologists, social workers, case managers, therapists, residents, fellows, nursing students and teachers.*
